

## ***Katie Wojtal, Senior Environmental Scientist***

### ***CREDENTIALS:***

- B.S., Environmental Policy, Institutions, and Behavior, Cook College, Rutgers University, New Brunswick, New Jersey

### ***CERTIFICATIONS:***

- OSHA 40 Hour Health and Safety Training
- OSHA 8 Hazardous Waste Operations and Emergency Response

### ***TECHNICAL EXPERTISE***

Due diligence investigations, Phase I / Phase II Environmental Site Assessments (ESAs); remedial phase investigation; remedial action selection; remedial action implementation; underground storage tank (UST) closure and investigation; regulatory applicability analysis; regulatory compliance support.

### ***EXPERIENCE SUMMARY:***

Ms. Wojtal has 10 years of experience providing skilled and focused environmental due diligence and environmental remediation support. Ms. Wojtal has extensive field oversight management experience including; industrial site decommissioning/remediation activities, underground storage tank removal, and soil excavation projects. Ms. Wojtal has demonstrated effective risk communication engagement for stakeholders; addressing concerns in association with environmental investigations, especially, potable groundwater well quality, and soil vapor intrusion evaluations. Ms. Wojtal has conducted Phase I ESAs at sites throughout the United States and Canada utilizing ASTM and CSA standards. In addition, Ms. Wojtal has managed environmental investigations and regulatory compliance requirements of remediation projects in New York, New Jersey, Pennsylvania, Delaware, and West Virginia.
